

Bethel Public Library

Be curious. Be enlightened. Be inspired.

All Together @ Your Library!

A great way to get your child ready for kindergarten is to join the BPL Summer Reading Challenge! Whether your child is reading on their own or you are reading to your child, summer reading encourages a love of reading.

Starting June 12, stop in the library or register online through our Beanstack software and keep track of what you and your child are reading. Throughout the summer, your child will earn prizes, play games, and attend programs that support reading. Participation can be completed through the Beanstack website or mobile app.

On Wednesday, June 21, at 3 PM you are invited to the Library's Summer Kick-off to see "Instruments Around the World" with Chris Merwin.

Can't make the event? That's okay - we will have programming through the entire summer for all ages. Check out our website for details: www.bethellibrary.org/summer23. This year, summer reading is for everyone from toddlers to adults.
